## Automatic Life Jacket 170N

---

Coastal & Offshore Use • Increases  
Likelihood Of Wearer Survival

---

### PRODUCT DESCRIPTION

This 170N portable flotation device is certified to EN 396:1993/A1:1998 and may be easily inflated manually by blowing into the tube or automatically by pulling on the toggle. It is designed for coastal and offshore use with foul weather clothing. Once automatically inflated the re-arming kit will need to be replaced. The life jacket is made from durable TPU nylon composite material and contains a 33g CO<sup>2</sup> cylinder.

### FEATURES & BENEFITS

- High visibility SOLAS certified reflective tape
- A whistle
- Lifting loop
- Heavy duty stainless steel D-ring and buckle

---

### CERTIFICATION
